

AQ-10 for Children Aged 12 - 15

What is it?

'AQ-10' stands for Autism Spectrum Quotient, and is comprised of 10 statements. It is a tool used to identify people who may benefit from an autism assessment.

Before you start:

You can choose to fill out the AQ-10 digitally or manually. Filling it out digitally is easier, because your score is calculated automatically for you. You must have Adobe Acrobat installed to fill it out digitally.

How does it work?

Take some time to read the 10 statements carefully. Tick the box that most accurately represents how your child relates to each statement. Note that it makes no difference to your score whether you choose 'slightly' or 'definitely'. Scoring is based on whether you agree or disagree, not on how strongly you feel.
